

Product Benefits

J-DRain – Foundation Drains

1. Better drainage than pipe & stone

80 % open area vs 1-3% open area of a perforated 4” pipe

Over 30 gal. /min./lf in-plane water flow capacity

No concerns about gravel quality or soil fines

2. Lower installation costs

Faster installation, usually 50 % or more

Labor costs drastically reduced

Less removal of soils from jobsite

No scheduling or waiting for gravel trucks

3. Easy to install

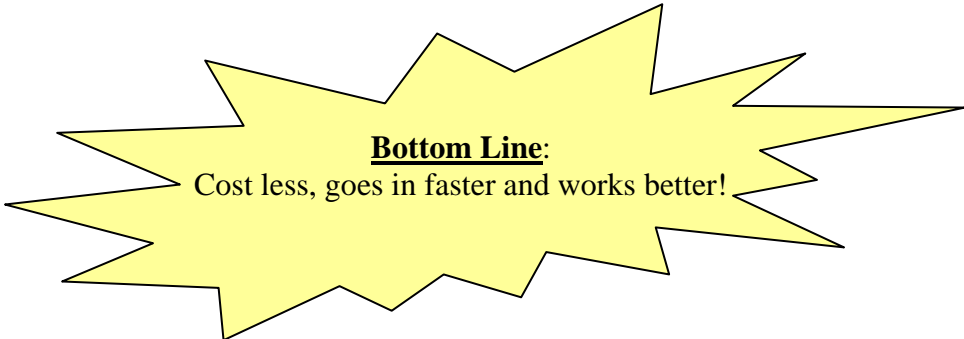

Flexible, lightweight rolls

Customized fitting to ensure maximum performance

No heavy equipment requirements

4. Predictable performance

Approved nationwide (ICC & NES) for residential foundations

Bottom Line:

Cost less, goes in faster and works better!
