

Straw Coconut Blanket (SCB)

3904 Virginia Ave • Cincinnati, Ohio 45227 • Phone (513) 271-6000 • Fax (513) 271-4420

Erosion Control Blankets

SCB contains a mix of 70% agricultural straw and 30% coconut fibers, evenly distributed throughout the blanket. The top and bottom sides of the blanket are covered with a synthetic mesh that is knitted with degradable thread, forming a durable mat. SCB is designed for use in moderate to heavy flow drainage channels and on slopes of up to a 1:1 grade and offers longevity of up to 24 months.
